

Directions:

Go on the internet and look up the following types of sports (live-action) photography styles. Find four different photos that you think are great examples of capturing live-action (motion) **and** that you would like to try and replicate. Copy and paste those in the boxes provided. After you have selected photos, write an explanation as to why you chose those images, and some self-generated tips on how you plan on replicating that style.

Sports Portrait: Think about sports trading cards. Look at how players get positioned; what pose are they given that reflects their sport, how is the sporting equipment used in the photo? Is the photo landscape or (horizontal) or portrait (vertical)?
